Current task

Co-Founder carbonauten and CTO: Site development, material flows, renewable energy, production and process engineering

Professional career

Since November 2016

Consulting activity for business consulting
- Collaboration on a report about an insolvent biogas group
- Collaboration on expert opinion on the German biogas and solid biomass market

11/ 2012 - 11/2016

Managing Partner of GreenCarbon GmbH
Development and establishment of a production of vegetable carbon from biomass by pyrolysis of wood and green waste for the production of Terra Preta, barbecue carbon and activated carbon.

07/2003 - 11/2012

Independent consultant
Project planning and operation of supply systems
- Development of the market launch of a technology for the production of coal from biomass
- Development of a biogas plant in Nunsdorf, Brandenburg (contract design, financing)
- Site development of a biomass cogeneration plant in Schwerte, NRW, for the use of landscape conservation material
- Development of the business field "Renewable Energies" for E2 energy GmbH, Berlin (development of supply concepts from combined heat and power generation by using virtual biogas), development of biogas plants for processing and feeding into the natural gas grid

minus CO2 by carbonauten

- Project development of a biomass cogeneration plant in Croatia for E2 energy GmbH
- Project planning of a biomass heating plant in Kyritz, Brandenburg
- Project planning of a biomass cogeneration plant in Malchin for the company Fugema
- Development and realization of several biomass heating plants (biomass heating plant Hausham, biomass heating plant Siebenlehn)
- Development of a concept for the thermal utilization of straw (acquisition of straw supply contracts, preparation of a business plan, preparation of the machine concept, processing of applications for subsidies etc.)
- Introduction of the ENARESS program at Deutsche Bahn AG: Utilization of the wood reserves accumulated along the railroad lines for energetic use in DB-owned properties
- Development and successful implementation of a marketing concept for the decommissioned hazardous waste incineration plant Schwabach of GSB Sonderabfall- GmbH (100% subsidiary of the Free State of Bavaria), conversion into a bioenergy park
- Development of heat supply concepts for various contractors (e.g. Techem Energy Contracting GmbH)
- Valuation, risk analysis and development of optimization proposals for an existing biomass cogeneration plant with connected district heating network
- Project development of a combined heat and power plant in Sernaglia with acquisition of a Canadian investor (Maxim Energy Group) for necessary equity capital (DM 18 million)

10/1998 - 06/2003

- WM Invest AG, Nuremberg (food industry)
Head of media supply, location development
- Implementation of savings potentials in the energy sector and media supply of the individual production sites
 - Energy management consulting for other companies belonging to the group
 - Concept development: Construction of a conceptually innovative food plant in connection with a biomass cogeneration plant
 - Preparation of grant applications
 - Preparation of business plans (d/e)

10/1995 - 09/1998

- ESP-GEKO GmbH, Munich
Legal department, advice to the individual departments in contractual matters, project development
- Preparation of heat supply contracts (approx. 50 MW)
 - Preparation of district heating concession contracts in various municipalities
 - Fuel supply contracts for the heating and cogeneration plants of ESP-GEKO GmbH (approx. 450,000 t of wood per year)
 - Support in the acquisition of contracting models close to the site
 - Support in contractual matters of the plant engineering department for component deliveries (approx. DM 100 million annually)

Further vocational training

06/1996

- Basics of energy law

08/1995

- Incidental personnel costs

03/1995

- Academy Henssler, course tax law, bookkeeping and accounting

10/1994

- Introduction ACCESS

06/1994

- Introduction MS Project

Training

1990 - 1997

Law studies at the Ludwigs-Maximilians-University Munich with the 2nd state examination

Knowledge

EDP - MS-Office (Excel, Word, PowerPoint, Outlook), Lexware Fibu Accounting - HGB/BiMoG: balance sheet secure

Languages

- German, English, French
